

BEACH TENNIS BERMUDA

**at the magnificent Horseshoe Bay Beach
in Southampton**

www.beachtennisbermuda.com

As the name implies, Beach Tennis is a combination of tennis and beach volleyball. It is played on a court, on the beach with the court having the same dimensions as in beach volleyball. You play with a paddle and tennis ball with low (6lb) pressure, hitting over a net that's approx 5.8 feet in height. It is always played in a doubles format. The objective is to serve the ball over the net without hitting it out of bounds. The score is kept in the same way as tennis, counting 15, 30, 40 and game. At duece, the next point wins, commonly referred to as no-add scoring. Only one serve is allowed. Players cannot touch the net. Oh, and be Ready For Lots of FUN!!!
